Associate Professor of Toxicology & Pharmacology

Applications are invited for a tenured position at the rank of Associate Professor. Applicants possessing an M.D. or a Ph.D. or preferably an M.D./Ph.D. degree, and having a strong commitment to basic research, are sought. Some clinical or clinic-related experience is desirable.

Applicants having an interest in disease-related or organ-specific toxins, or in xenobiotics having cellular or genetic actions or in xenobiotic distribution and metabolism would be preferred but applications from specialists in other related areas will be considered.

Responsibilities will include participation in the departmental teaching of medical and graduate students, major involvement in the Toxicology Tracks of the Department and minor administrative duties.

Inquiries which should include curriculum vitae, synopsis of current research interests, list of publications, reprints of selected publications, and the names of eight references should be sent by March 31, 1983 to Dr. Francis Johnson, Chairman, Faculty Search Committee, Department of Pharmacological Sciences, School of Medicine, Health Sciences Center, SUNY Stony Brook, Stony Brook NY 11794. SUNY Stony Brook is an equal opportunity/affirmative action employer. AK558B.
